

Drainage Board

February 29, 2008 – 11:38 am

Meeting called to order by President Logsdon. Members Logsdon, Rininger, Gogel, and Surveyor Sublett were present. Attorney Robinson was absent.

Minutes

02/04/2008 and 02/19/2008; Rininger made a motion to approve the minutes. Gogel seconded. All in favor.

Bid Opening

Logsdon explained that after the planned clearing of Tower Drain, \$15,900 was left over from the amount expected to spend. It was decided to use that excess amount to clear part of a tributary to David Walters Drain and part of David Walters Drain which would help water drain from the area where Luce Elementary has a field bed and septic system. The plan is to first open the bids for the Tributary to David Walters Drain and then if there is still money available out of the \$15,900, the bids for David Walters Drain will be opened.

Tributary to David Walters Drain Bid Opening:

Youngblood Farm	\$1,650.00
Sam's Backhoe Service	\$4,918.00
K & K Dirtworks	\$9,811.16

Rininger made a motion to accept the bid from Youngblood Farms for \$1,650.00. Gogel seconded. All in favor.

Logsdon stated that with that bid, the balance of the excess from Tower Drain is \$14,300, so the bids can be opened for the work on the David Walters Drain.

David Walters Drain Bid Opening:

K & K Dirtworks	\$7,775.00
Sam’s Backhoe Service	\$6,210.00
Youngblood Farms	\$3,015.00

Gogel made a motion to accept the bid from Youngblood Farms for \$3,015.00. Rininger seconded. All in favor. Logsdon thanked all of the bidders.

Logsdon stated that the balance of the excess from the Tower Drain project is now \$11,285.

Big Sandy Creek Drain

Logsdon asked Knepper, of K & K Dirtworks, how the work is coming on Big Sandy Creek. She stated that the work has been started and it will be finished as soon as it is dry.

Other Business

Logsdon stated that the board may need to look into the possibility of spraying the banks of the ditches that have been cleared to prevent future problems. He stated that IDEM and Soil and Water would need to be contacted to see if that was a possibility.

Logsdon explained that the Surveyor was attending a stormwater drainage seminar.

Jim Strobel asked the board if it has been decided if work will be done on the Little Pigeon Tributary near CR 1800. He stated that if the drain was opened up just a short distance it would clear out. Logsdon stated that a decision has not been made, but he will get with Sublett, and INDOT to find out what the plan is for the road. Then the board will take it under advisement.

Rininger made a motion to adjourn. Gogel seconded. All in favor. The meeting was adjourned at 11:58 am.

Drainage Board,

_____ President	_____
Attest:	
_____ Cindy Shelton, Auditor	_____
